

CoreWeld NB FastDry Thick

Product Features

CoreWeld NB FastDry Thick is a quick setting solvent based core and mold adhesive. This adhesive is thick enough to control application while allowing penetration of the sand surface which assures a strong bond when fully dry. CoreWeld NB FastDry Thick utilizes a fast drying organic solvent that is not classified as a VOC or HAP.

Performance Characteristics

- Strong bond
- Fast drying formulation
- Good application characteristics when a thicker paste is required

Physical Properties (as produced)

| | |
|---------------|----------------|
| Physical Form | Flowable Paste |
| Color | Green |
| Odor | Acetone |

Product Application

Glue Application

Shake/mix before use

Apply to core or mold surfaces that are to be bonded together. Allow approximately 5 - 10 minutes for the adhesive to set.

Storage Guidelines

Avoid extremes of temperature during storage. This coating should be stored away from open flames and sources of ignition. Recommended use-life is 1 year.

Safe Handling

This coating is classified as a flammable liquid and should be stored away from open flames and sources of ignition. Refer to the Material Safety Data Sheet for additional information.

Technical Service

Let HA International be “The Best Total Solution” for your foundry by providing innovative products, in-depth technical assistance, and a diverse product line specially formulated for any foundry application. Both our in-house and field experts are available to assist you with your most challenging foundry applications. Contact your sales representative for additional technical information.
