

## Introducing New and Improved Super Sack for Resin Coated Sand

Beginning in May 2012, the new design features a velcro closure instead of a knotted closure. This is a first for the foundry industry.

- ✓ Faster
- ✓ Easier
- ✓ Safer

No more knots to untie - just pull and unwind!  
After locating and pulling the velcro tab, no further exposure underneath the packaging is required, making the process safer.

Another Best Total Solution™ from HAI.
